Creative A50

Quality stereo powered by USB

Designed practical and simple to use, the A50 is powered by USB and delivers quality sounding audio for your notebook or desktop via its 3.5mm stereo jack that ensures audio connectivity across a wide range of devices.

- **AUDIO AT YOUR CONVENIENCE**
    - **Powered by USB**
        - **A USB port is all it takes to power up the A50. Simply plug it to your computer – no power adapter needed!**
    - **Built-in bass port**
        - **Designed with a built-in bass port, the A50 gives you extended bass for your music while taking up minimal space on your desk.**
    - **Easy connectivity**
        - **The 3.5mm stereo jack gives you audio connectivity to a wide array of audio devices.**
    - **Magnetically shielded**
        - **You can place the A50 anywhere near your CRT displays without any worries! The speakers' magnetic shields ensure that magnetic interference does not affect your display equipment.**
    - **Convenient controls**
        - **The ON/OFF button and volume control are conveniently located on the right satellite for easy access.**
