

# Minibox

**Basic and multifunction metal case, applications from little testing equipment to heavy-duty installations such as machine/motor controls or automated pass controls.**

Easy and budget fitted drilling options, by programmable CNC punching machines.

Fifteen sizes from 55 to 4.400 cm<sup>3</sup> internal volume.

Made entirely of 1 mm. thick aluminium, 3003 quality. Polyester paint finished, outer surface covered with removable transparent protective film. Its aluminium construction eases EMI / RFI protection of equipments. Two piece construction held together with self-tapping screws, except the smallest size (31040001), which lid and base snap together.

**Finish:** polyester painted, colour RAL 7038 medium grey.

**Basic unit includes:** base, cover and 4 self-tapping screws.

**Optional:**

- special dimensions.
- custom-special made drillings.
- silk screen.

**Coffret multifonctions, avec des applications depuis les petits montages dans des équipements de contrôle à des installations robustes comme les commandes de machines ou de moteurs, et de commandes de pas automatisées.**

*Facilité et économie d'usinage car elle sont fabriquée avec des machines CNC.*

*Quinze modèles avec des capacités de 55 à 4 400 cm<sup>3</sup> de volume intérieur.*

*Fabrication totalement en aluminium de 1 mm, qualité 3003, pré-peinte de couleur gris claire et protégée par film transparent amovible. Sa construction en aluminium facilite la protection EMI / RFI des équipements.*

*Fixation de couvercle au moyen de vis autotaraudeuses, à l'exception de la taille la plus petite (31040001), fixée au moyen de clips à pression du couvercle et de la base.*

**Finitions:** En peinture polyester, couleur gris moyen RAL 7038.

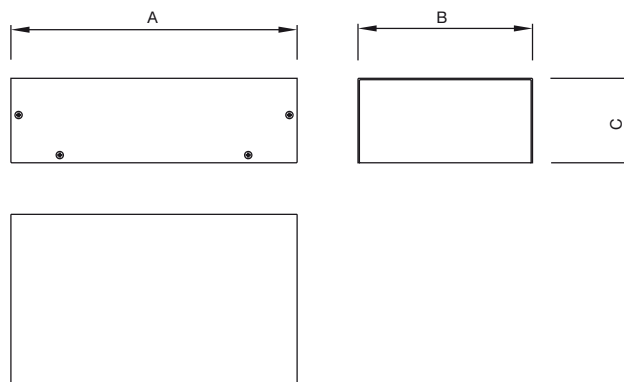

**Chaque unité inclut:** Couvercle, base, 4 vis autotaraudeuses.

**Options :**

- Dimensions spéciales.
- Usinages spéciaux
- Sérigraphie.
